## NEW Market Intelligence for Your Export Planning

Get insight into international opportunities with our reports. They are produced by U.S. Commercial Service trade experts at U.S. embassies and consulates. Check out these new reports:

- [France Smart Transportation](#): France will invest in new technologies with the goal of becoming the first European country to reach carbon neutrality in 2050.
- [Egypt Port Infrastructure](#): U.S. logistics management companies may look into providing management services to Egypt's ports.
- [India's Nutraceutical Industry](#): India's nutraceutical industry is expected to hold at least 3.5 percent of global market share by 2023.
- [Peru Medical Devices](#): U.S. suppliers of diagnostic imaging and emergency room equipment are encouraged to explore the Peruvian medical device market.
- [Ireland Smartsafe Resilient Cities](#): Ireland is creating accessible, sustainable, and safe cities, presenting opportunities for U.S. digital and security vendors.
- [Ukraine Infrastructure Plan](#): Ukraine's plan to modernize and repair the country's transportation infrastructure envisions a budget of \$60 billion to be invested in roads, railways, airports, and sea ports.
- [Hong Kong Financial Markets](#): Hong Kong's financial services sector is a promising market for U.S. financial technology companies.
- [Kenya Affordable Housing](#): Kenya identifies affordable housing as a top priority with a goal of adding 500,000 homes in the next five years. U.S. companies can find an advantage in offering project development, design and planning services.
