AUTHORIZATION FOR DOMESTIC OPEN MARKET OPERATIONS

Amended February 6, 1990

1. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, to the extent necessary to carry out the most recent domestic policy directive adopted at a meeting of the Committee:

(a) To buy or sell U. S. Government securities, including securities of the Federal Financing Bank, and securities that are direct obligations of, or fully guaranteed as to principal and interest by, any agency of the United States in the open market, from or to securities dealers and foreign and international accounts maintained at the Federal Reserve Bank of New York, on a cash, regular, or deferred delivery basis, for the System Open Market Account at market prices, and, for such Account, to exchange maturing U. S. Government and Federal agency securities with the Treasury or the individual agencies or to allow them to mature without replacement; provided that the aggregate amount of U. S. Government and Federal agency securities held in such Account (including forward commitments) at the close of business on the day of a meeting of the Committee at which action is taken with respect to a domestic policy directive shall not be increased or decreased by more than \$8.0 billion during the period commencing with the opening of business on the day following such meeting and ending with the close of business on the day of the next such meeting;

(b) When appropriate, to buy or sell in the open market, from or to acceptance dealers and foreign accounts maintained at the Federal Reserve Bank of New York, on a cash, regular, or deferred delivery basis, for the account of the Federal Reserve Bank of New York at market discount rates, prime bankers acceptances with maturities of up to nine months at the time of acceptance that (1) arise out of the current shipment of goods between countries or within the United States, or (2) arise out of the storage within the United States of goods under contract of sale or expected to move into the channels of trade within a reasonable time and that are secured throughout their life by a warehouse receipt or similar document conveying title to the underlying goods; provided that the aggregate amount of bankers acceptances held at any one time shall not exceed \$100 million;

(c) To buy U. S. Government securities, obligations that are direct obligations of, or fully guaranteed as to principal and interest by, any agency of the United States, and prime bankers acceptances of the types authorized for purchase under 1(b) above, from dealers for the account of the Federal Reserve Bank of New York under agreements for repurchase of such securities, obligations, or acceptances in 15 calendar days or less, at rates that, unless otherwise expressly authorized by the Committee, shall be determined by competitive bidding, after applying reasonable limitations on the volume of agreements with individual dealers; provided that in the event Government securities or agency

issues covered by any such agreement are not repurchased by the dealer pursuant to the agreement or a renewal thereof, they shall be sold in the market or transferred to the System Open Market Account; and provided further that in the event bankers acceptances covered by any such agreement are not repurchased by the seller, they shall continue to be held by the Federal Reserve Bank or shall be sold in the open market.

2. In order to ensure the effective conduct of open market operations, the Federal Open Market Committee authorizes and directs the Federal Reserve Banks to lend U. S. Government securities held in the System Open Market Account to Government securities dealers and to banks participating in Government securities clearing arrangements conducted through a Federal Reserve Bank, under such instructions as the Committee may specify from time to time.

3. In order to ensure the effective conduct of open market operations, while assisting in the provision of short-term investments for foreign and international accounts maintained at the Federal Reserve Bank of New York, the Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York (a) for System Open Market Account, to sell U. S. Government securities to such foreign and international accounts on the bases set forth in paragraph 1(a) under agreements providing for the resale by such accounts of those securities within 15 calendar days on terms comparable to those available on such transactions in the market; and (b) for New York Bank account, when appropriate, to undertake with dealers, subject to the conditions imposed on purchases and sales of securities in paragraph 1(c), repurchase agreements in U. S. Government and agency securities, and to arrange corresponding sale and repurchase agreements between its own account and foreign and international accounts maintained at the Bank. Transactions undertaken with such accounts under the provisions of this paragraph may provide for a service fee when appropriate.

AUTHORIZATION FOR FOREIGN CURRENCY OPERATIONS
Reaffirmed February 6, 1990

1. The Federal Open Market Committee authorizes and directs the Federal Reserve Bank of New York, for System Open Market Account, to the extent necessary to carry out the Committee's foreign currency directive and express authorizations by the Committee pursuant thereto, and in conformity with such procedural instructions as the Committee may issue from time to time:

A. To purchase and sell the following foreign currencies in the form of cable transfers through spot or forward transactions on the open market at home and abroad, including transactions with the U. S. Treasury, with the U. S. Exchange Stabilization Fund established by Section 10 of the Gold Reserve Act of 1934, with foreign monetary authorities, with the Bank for International Settlements, and with other international financial institutions:

Austrian schillings

B. To hold balances of, and to have outstanding forward contracts to receive or to deliver, the foreign currencies listed in paragraph A above.

C. To draw foreign currencies and to permit foreign banks to draw dollars under the reciprocal currency arrangements listed in paragraph 2 below, provided that drawings by either party to any such arrangement shall be fully liquidated within 12 months after any amount outstanding at that time was first drawn, unless the Committee, because of exceptional circumstances, specifically authorizes a delay.

D. To maintain an overall open position in all foreign currencies not exceeding \$21.0 billion. For this purpose, the overall open position in all foreign currencies is defined as the sum (disregarding signs) of net positions in individual currencies. The net position in a single foreign currency is defined as holdings of balances in that currency, plus outstanding contracts for future receipt, minus outstanding contracts for future delivery of that currency, i.e., as the sum of these elements with due regard to sign.

2. The Federal Open Market Committee directs the Federal Reserve Bank of New York to maintain reciprocal currency arrangements ("swap" arrangements) for the System Open Market Account for periods up to a maximum of 12 months with the following foreign banks, which are among those designated by the Board of Governors of the Federal Reserve System under Section 214.5 of Regulation N, Relations with Foreign Banks and Bankers, and with the approval of the Committee to renew such arrangements on maturity:

* Facility with maturity date of February 15, 1990.

Any changes in the terms of existing swap arrangements, and the proposed terms of any new arrangements that may be authorized, shall be referred for review and approval to the Committee.

3. All transactions in foreign currencies undertaken under paragraph 1.A above shall, unless otherwise expressly authorized by the Committee, be at prevailing market rates. For the purpose of providing an investment return on System holdings of foreign currencies, or for the purpose of adjusting interest rates paid or received in connection with swap drawings, transactions with foreign central banks may be undertaken at non-market exchange rates.

4. It shall be the normal practice to arrange with foreign central banks for the coordination of foreign currency transactions. In making operating arrangements with foreign central banks on System holdings of foreign currencies, the Federal Reserve Bank of New York shall not commit itself to maintain any specific balance, unless authorized by the Federal Open Market Committee. Any agreements or understandings concerning the administration of the accounts maintained by the Federal Reserve Bank of New York with the foreign banks designated by the Board of Governors under Section 214.5 of Regulation N shall be referred for review and approval to the Committee.

5. Foreign currency holdings shall be invested insofar as practicable, considering needs for minimum working balances. Such investments shall be in liquid form, and generally have no more than 12 months remaining to maturity. When appropriate in connection with arrangements to provide investment facilities for foreign currency holdings, U. S. Government securities may be purchased from foreign central banks under agreements for repurchase of such securities within 30 calendar days.

6. All operations undertaken pursuant to the preceding paragraphs shall be reported promptly to the Foreign Currency Subcommittee and the Committee. The Foreign Currency Subcommittee consists of the Chairman and Vice Chairman of the Committee, the Vice Chairman of the Board of Governors, and such other member of the Board as the Chairman may designate (or in the absence of members of the Board serving on the Subcommittee, other Board Members designated by the Chairman as alternates, and in the absence of the Vice Chairman of the Committee, his alternate). Meetings of the Subcommittee shall be called at the request of any member, or at the request of the Manager for Foreign Operations, for the purposes of reviewing recent or contemplated operations and of consulting with the Manager on other matters relating to his responsibilities. At the request of any member of the Subcommittee, questions arising from such reviews and consultations shall be referred for determination to the Federal Open Market Committee.

7. The Chairman is authorized:

A. With the approval of the Committee, to enter into any needed agreement or understanding with the Secretary of the Treasury about the division of responsibility for foreign currency operations between the System and the Treasury;

B. To keep the Secretary of the Treasury fully advised concerning System foreign currency operations, and to consult with the Secretary on policy matters relating to foreign currency operations;

C. From time to time, to transmit appropriate reports and information to the National Advisory Council on International Monetary and Financial Policies.

8. Staff officers of the Committee are authorized to transmit pertinent information on System foreign currency operations to appropriate officials of the Treasury Department.

9. All Federal Reserve Banks shall participate in the foreign currency operations for System Account in accordance with paragraph 3.G(1) of the Board of Governors' Statement of Procedure with Respect to Foreign Relationships of Federal Reserve Banks, dated January 1, 1944.

3. The Manager for Foreign Operations shall also consult with the Subcommittee or the Chairman about proposed swap drawings by the System, and about any operations that are not of a routine character.

RESOLUTION OF FEDERAL OPEN MARKET COMMITTEE
TO PROVIDE FOR THE CONTINUED OPERATION OF
THE COMMITTEE DURING AN EMERGENCY

Amended February 6, 1990

In the event of a national security emergency, if the Secretary or Assistant Secretary of the Federal Open Market Committee (or in the event of the unavailability of both of them, the Secretary or Acting Secretary of the Board of Governors of the Federal Reserve System) certifies that as a result of the emergency the available number of regular members and regular alternates of the Federal Open Market Committee is less than seven, all powers and functions of the said Committee shall be performed and exercised by, and authority to exercise such powers and functions is hereby delegated to, an Interim Committee, subject to the following terms and conditions:

Such Interim Committee shall consist of: seven members, comprising each regular member and regular alternate of the Federal Open Market Committee then available, together with an additional number, sufficient to make a total of seven, which shall be made up in the following order or priority from those available: (1) each alternate at large (as defined below); (2) each President of a Federal Reserve Bank not then either a regular member or an alternate; (3) each First Vice President of a Federal Reserve Bank; provided that (a) within each of the groups referred to in clauses (1), (2), and (3) priority of selection shall be in numerical order according to the numbers of the Federal Reserve Districts, (b) the President and the First Vice President of the same Federal Reserve Bank shall not serve at the same time as members of the Interim Committee, and (c) whenever a regular member or regular alternate of the Federal Open Market Committee or a person having a higher priority as indicated in clauses (1), (2), and (3) becomes available he shall become a member of the Interim Committee in the place of the person then on the Interim Committee having the lowest priority. The Interim Committee is hereby authorized to take action by majority vote of those present whenever one or more members thereof are present, provided that an affirmative vote for the action taken is cast by at least one regular member, regular alternate, or President of a Federal Reserve Bank. The delegation of authority and other procedures set forth above shall be effective only during such period or periods as there are available less than a total of seven regular members and regular alternates of the Federal Open Market Committee.

As used herein the term "regular member" refers to a member of the Federal Open Market Committee duly appointed or elected in accordance with existing law; the term "regular alternate" refers to an alternate of the Committee duly elected in accordance with existing law and serving in the absence of the regular member for whom he was elected; and the term "alternate at large" refers to any other duly elected alternate of the Committee at a time when the member in whose absence he was elected to serve is available.

RESOLUTION OF FEDERAL OPEN MARKET COMMITTEE AUTHORIZING
CERTAIN ACTIONS BY FEDERAL RESERVE BANKS DURING AN EMERGENCY
Amended February 6, 1990

The Federal Open Market Committee hereby authorizes each Federal Reserve Bank to take any or all of the actions set forth below during and following a national security emergency when such Federal Reserve Bank finds itself unable after reasonable efforts to be in communication with the Federal Open Market Committee (or with the Interim Committee acting in lieu of the Federal Open Market Committee) or when the Federal Open Market Committee (or such Interim Committee) is unable to function. Action(s) under this authorization will be taken by a Federal Reserve Bank only after reasonable efforts have been made to consult with the Chairman of the Committee or if the latter is not available with the Vice Chairman of the Committee or if both the Chairman and the Vice Chairman are not available, with whatever member of the Board of Governors may be available to serve as Acting Chairman as provided for by the Committee's Rules of Organization. In addition, to the extent feasible, the action(s) should be coordinated with other Reserve Banks with which the Reserve Bank is able to communicate.

(1) Whenever it deems it necessary in the light of economic conditions and the general credit situation then prevailing (after taking into account the possibility of providing necessary credit through advances secured by direct obligations of the United States under the last paragraph of section 13 of the Federal Reserve Act), such Federal Reserve Bank may purchase and sell obligations of the United States for its own account, either outright or under repurchase agreement, from and to banks, dealers or other holders of such obligations.

(2) Such Federal Reserve Bank may engage in operations of the types specified in the Committee's authorization for System foreign currency operations when requested to do so by an authorized official of the U.S. Treasury Department; provided, however, that such Bank shall take all steps practicable at the time to insure as far as possible that, in light of the information available on other System foreign currency operations, its own operations do not result in the aggregate in breaching any of the several dollar limits specified in the authorization.

Authority to take the actions set forth shall be effective only until such time as the Federal Reserve Bank is able again to establish communications with the Federal Open Market Committee (or the Interim Committee), and such Committee is then functioning.
