Subject: Economic Growth and Regulatory Paperwork Reduction Act of 1996 Review

To really make a difference in saving money for the consumer, RESCIND the law on RESPA, HMDA, HOEPA AND CRA . I know this may sound wild but if the rules could , at least, be relaxed on loans under \$100,000. or something to keep from having a mountain of paperwork on small loans, it would be a help.

Sincerely,
