Subject: Truth in Lending

Dear Sirs and Madams:

I am so excited to hear about these proposed changes to credit card company practices. It's about time the government stepped in and took action. For too long credit card companies have gotten away with sleazy tactics that end up costing the public a lot of money. The fight was very unfair. Thank you for looking at these practices, determining that they're wrong, and actually doing something about it. The people can't control credit card company policy, so it is definitely up to the government to do so.

Thank you,

Brittany Bowdish
