Federal Reserve Board

Dear Federal Reserve Board:

Why is it that only government officials and corporations are allowed the "breaks", the best salaries, the golden parachutes and they still want more and more and more from the working taxpayer whose hours go up, salaries stay the same, interest rates increase, gas prices increase and are taken advantage of beyond belief. Without the working class none of you would exist. Show more appreciation and concern for us and less for yourselves. We need to change this "all about me" attitude.

Sincerely,

Sandra Mathes
