Your comment: We would like to address the board of governors gross, criminal class neglect: To provide We The People, and our children our constitutional rights to a sound, sure, secure, steadfast economic system quality employment and adequate funds for community development and housing! We the people are intitled to a wholesome healthy sane well-adjusted daily civic life ecology and environment! Which can only be established through community based enhancement and infrastructure development investment. For these first twenty-four years of the 21st century the Governors have only kissed the capitalist regimes ass! Of whom the constitution makes no economic provisions for whatsoever!! The sick, brainwashed scandalous bookworms do have have the common sense, and/or mother-wit to do what's best for the nation as a whole!!! And that fact is testified to, and confirmed by our nation's insane degrees of crime, violence, drug addiction, homelessness, vice, graft, avarice, and corruption-laden, disequilibrium-infested, immorality plagued conditions the nation, and its people have been forced to endure 1/4 of a century. The current leadership is absolutely, totally unfit to sit in seats of power, and authority, were the well being of the nation, and the peoples well being are at stake. They do not have the necessary civic, human, and social qualities to represent the well being of the nation as a whole!!! The sleazy, rotten selfish capitalist regime should be subject to the same laws, and rules the small independent merchants and every other business which makes unwanted unwarranted unscrupulous business decisions are subjected too which is bankruptcy and ligitation!!! But those idiot brainwashed, worthless, useless bookworms class Governors choose to support, supplement, subsidize, and bail their sick stupid penny-wise, dollar-dumb ass's.out every time. Neglecting the well being of the nation, and the people to bail out the capitalist regime for the tech, housing bubble, and financial meltdown, and banking crisis is something only an unfit, unqualified, empty headed fool, and brainwashed idiot would do!!! A change in leadership is immediately needed!!! Powell and his interest rate bullshit will do nothing for the common people. When everything was on par. The banks still would not lend the common people a dime!!! If the banks, and finance institutions were taken out of the market place. Three hundred thousand dollar homes would be selling for thirty thousand dollars, and thirty thousand dollar card would sell for three thousand dollars. That's why the forefathers dictated in the constitution no banks, trust, and/or financial institutions. Only a sick, sociopath, predatory piece of shit would want it any other way!!! The reserve has completely failed to protect, serve, and provide for the well being, and best interest of the nation, and its people. To protect, serve, and provide for rich getting richer, while the nation, and its people gain no capital equity whatsoever!! Sincerely. We The People, and our Children.
