Your comment: I request help to implement for Indio CA congressional district 25 house task for public safety about police reform because they seem like they have no standard operation or peace officer certified training and no desertification program and it's like a civil rights at fiscal endemic and for the solution at least the payroll should not allow people to work for the place that aren't aren't certified and don't meet those criteria a bachelors and the academy and end up the common common ground of sworn defenders of the Constitution when I mean the value system of of the history it has not changed it's still instead they are they allowed an entity amongst them that that transform them into senseless and to philander all day long and they just are with those entities that should not have been with been in there in their department and then driving their vehicles is every night too that and then allowing certain places to be with extra people and it made like a it's obvious where those places are that where police go to also and are aid of the the people that are from out of town and that are only here not in a not in the best way like to close escrow and open and be an entrepreneur for the economy and to invest in the infrastructure and to help arrange infrastructure or to be a associate of that would balance out the weaknesses of our Assembly district that also is just a managers of welfare that will you know advocates of financial relief even for those for those construction sites that they are dragging on and for example the college of the Desert the closed building for 6 months needlessly so that it can be renovated for it's a job that can be done in a week. These are places to help improve of police neglected services that are like places of unlawful detaining and places that are supposed not be those entities: call to the desert the closed construction building on the way street, CV History museum miles Park and on the evenings across the street I've asked agencies to land in helicopters when they're spectacles of uniform crime and then also a place of an awful detaining the back of veteran affairs of Hoover and Monroe Street and then desert stage right here next door please call it's a housing for for but it's has a breach and the security sometimes uniforms and it seems like they all couldn't work for the angel police when it's like a group of like people police uniforms like that even steal from people are extortion the people that are the transform them wrongfully and here at the apartment complex I live at the neighbor moved out and it still has people maybe jail deputies or police not authorized to be inside for any task I'll complaint about officer and then also a complaint about a probation officer she's an expiration or they they have replicas of them when they're they go to people's houses that probation officer that he goes to both of my parents house I think and she is always often with people that are just crying and then she deceased people and then wrong well because I'm not the criminal and I'm not the concern when the thing is I'm not being too this is can you the bottom line is that I'm reporting to you and I'm asking you the governor or somebody of the board to help with the police reform police it's a police endemic because it's regarding to its own area police overhaul tree n
