Your comment: Request for implementation for the congress solution for Indio CA police fiscal civil rights endemic where the solution would be that administration of the state and us would have power over the payroll that should not allow for their service to reflect violations of the Bill of Rights or civil rights and and constitutionally it is the payroll that can be required to be without any of those with that should not be working within the 90 days for and also to those that still continue on as not on retired or 401k maybe an exchange on overhaul because the immunities and how they don't have any internal it needs to be it's already an outrage and result and solution for an outrage for of history of Congress insurrection would be to overhaul and I asked for your implementation to direct to helicopters with a board of governors and the house for a police reform and a house task of those of your States because it needs to have a high ranking of official to to cause I don't recommend integration without at least an update with the with checks and balances for Fourth amendment violation by police officers and then

also to require that some be let go not integrate right away for for the outrage of text and balances was needed a long time ago Fourth amendment violations it's like all their services are seeming like they have no no standard operation procedure or they're sending like they're not peace officers at all of duty and their Undercovers and their when they their services are almost a risk it's like calling them is a risk because they even threat with the solution for reform that won't happen because it's affected the the trend in Congress locally and it's like after also a depleting and waning population if that if it's not more in value to keep the peace and civil in nature of and the the better of the better and then also it seems like they're not ever in consideration of family youth or planned parenting instead of trends in in one or two houses where the police like to make a brothel another broken rule
