

Micro Report Series Description

Series Mnemonic	MKSD
Series Name	Advance Report of Deposits from Large Banks; FR 2000
Starting Date	October 30, 1980
Ending Date	November 5, 2001
Frequency	Daily

Reporting Panel

FR 2000:

All U.S. member and nonmember commercial banks with total domestic assets of \$750 million or greater as of December 1977. At the request of Board staff, the panel is occasionally augmented by reporters experiencing extraordinary growth in deposits as a result of structure changes or other factors.

Major Changes to Reporting Panel

Beginning September 25, 1988, several banks were deleted from the panel.

Data Mode

Daily

Thousands of dollars

Data Availability

Approximately one week after report date.

Major Series Changes

Beginning August 22, 2000, three items were deleted from the FR 2000 report form: 1) Item "Demand deposits due to depository institutions (A.1.a, FR 2900);" 2) Item "U.S. Government demand deposits (A.1.b, FR 2900);" and 3) Item "Demand balances due from depository institutions in the U.S. (B.1, FR 2900)".

Beginning January 1999, thirty-three respondents from the discontinued Weekly Advance Report of Deposits (FR 2001), were added to the MKSD panel.

Beginning November 1, 1994, the scope of the reporting panel for the FR 2000 was expanded to include thrift institutions (excluding credit unions).

Beginning September 17, 1991, the item "ATS and NOW accounts" was replaced by item "ATS accounts, NOW accounts/Share drafts and telephone and preauthorized transfers."

Beginning September 25, 1988, two items were consolidated. "Demand deposits due to banks" and "demand deposits due to other depository institutions" were combined to form "Demand deposits due to all depository institutions", and "ATS accounts" and "NOW accounts" were combined to form "ATS and NOW accounts."

Beginning January 1984, the MKSD report form was revised to include three new items: (1) demand deposits due to other depository institutions; (2) U.S. Government demand deposits; and (3) vault cash. In addition, ATS and NOW accounts were split into two separate items.

Confidentiality

Individual respondent data and names of respondents are confidential.
