

DOMESTIC FINANCE COMPANY REPORT OF CONSOLIDATED ASSETS AND LIABILITIES – INSTRUCTIONS

The Federal Reserve is collecting information:

- On companies that supply credit or lease financing to households or businesses
- To provide the Federal Reserve with data for consumer and business credit series

Definition of a finance company for purposes of this survey:

Finance companies include companies in which more than 50 percent of assets are held in any of the following types of loan or lease assets:

- *Liens on real estate* – outstanding balances on loans or leases, for any purpose, secured by liens on real estate
- Loans and leases not secured by real estate
 - *Business loans and leases* – outstanding balances on loans and on leases for commercial and industrial purposes to sole proprietorships, partnerships, corporations, and other business enterprises
 - *Consumer loans and leases* – outstanding balances on loans and on leases for household, family, and other personal expenditures

For purposes of this survey, commercial banks, cooperative banks, credit unions, investment banks, savings banks, savings and loan institutions, and industrial loan corporations are NOT considered finance companies. However, subsidiaries of a bank holding company or foreign banking organization may be considered finance companies.

For finance companies with overseas operations - The dollar figures reported in this questionnaire should include only the domestic part of your company's operations, that is, those in the 50 states, the District of Columbia, Puerto Rico, or U.S. dependencies and territories.

For finance companies that own more than 50 percent of any other company - If your company is part of a larger set of affiliated companies, please *include* the consolidated operations of the U.S. parent *finance company* and all *finance company* affiliates and subsidiaries. Please *exclude* from the consolidation the operations of any affiliates and subsidiaries that are not finance companies (please see definition above).

Legal authorization: This information is authorized by law [12 U.S.C. § 225(a), 263, 353-359]. Although participation is voluntary, your company is an important part of this effort and your assistance is greatly appreciated. Your response is important and your answers will be kept confidential.

Respondent burden: We expect it will take you about 25 minutes to respond to this report, including the time required to review the instructions, gather the data, and complete the report. Please send any comments you may have about the time and effort required to respond, how we might reduce this time and effort, or any other aspect of this collection of information to:

The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

YOUR COMPANY'S BALANCE SHEET: Please provide the total amounts in thousands of dollars of each of the following types of assets and liabilities of your company as of **December 31, 2010**. Whenever possible, please follow U.S. GAAP standards when filling out this survey. If you are unable to provide the level of detail requested, your best reasonable estimate is appreciated.

COLUMN INSTRUCTIONS:

On-balance-sheet: Please provide asset, liability and equity data from your balance sheet, including detail related to real estate, consumer and business loans, and capital and operating leases.

Off-balance-sheet securitizations: Please provide data on assets that have been packaged and sold by the reporting finance company to a third party that uses the assets as collateral for an asset-backed security sold to investors.

Securitized assets refers to receivables that have been packaged and sold by the reporting finance company to a trustee or other third party who uses the receivables package as collateral for an asset-backed security that is sold to investors. The sale of the package results in the removal of the underlying receivables from the selling company's balance sheet. Report in these items the principal balance outstanding of securitized assets as defined above. These assets are no longer on the balance sheet of the reporting finance company and thus are not included in on balance sheet assets in items 3 and 4. Include assets such as leases that were never on the company books, but whose securitizations may be counted as a managed asset. Exclude from these items the amounts of outright asset sales that have not been packaged to collateralize an asset-backed security. PLEASE NOTE: For determination of the specific category below in which securitized assets should be reported, please refer to the item instructions for their counterparts in Assets items 3 and 4 above.

LINE ITEM INSTRUCTIONS:

ASSETS

1. Cash and Cash Equivalents: Currency on hand, demand deposits with banks or other financial institutions, and other kinds of accounts that have the general characteristics of demand deposits in that you may deposit additional funds at any time and also effectively may withdraw funds at any time without prior notice or penalty. Also include cash equivalents defined as short term, highly liquid investments that are both readily convertible to known amounts of cash and are so near their maturity that they present an insignificant risk of changes in value because of changes in interest rates. Generally, only investments with original maturities of three months or less qualify under this definition. Examples of items generally considered to be cash equivalents are Treasury bills, commercial paper, money market funds, and federal funds sold. See FAS 95 for more information.

2. Securities: Value of all trading, available-for-sale, or held-to-maturity debt, or equity securities as defined by FAS 115. Examples include debt securities issued by the U.S. Treasury and other U.S. government corporations and agencies, debt securities issued by the states and political subdivisions of the states, debt securities issued by foreign governments, corporate debt securities, mortgage and other asset-backed securities, and other debt securities. Exclude securities reported in data item 1.

3. Net Loans and Capital Leases: Loans include direct loans and paper purchased from manufacturers and retailers before deduction of reserves for unearned income and reserves for losses. *Include* bulk purchases of paper from vendors. In the case of participation loans, *include* only that portion of the original loan owned by you and appearing on your balance sheet. In the case of companies requiring full repayment to be accumulated against indebtedness before crediting, *exclude* from liabilities the amount of deposits already accumulated. Net these accumulated deposits against appropriate receivables in the Assets section.

A. Real Estate Loans: Outstanding balances on loans, for any purpose, secured by liens on real estate.

(1) 1-4 Family Real Estate Loans: Credit arising from revolving or permanent loans secured by real estate as evidenced by mortgages (FHA, FMHA, VA, or conventional) or other liens (first or junior) on nonfarm property containing 1-4 dwelling units (including vacation homes) or more than 4 dwelling units if each is separated from other units by dividing walls that extend from ground to roof (row houses, townhouses, or the like); mobile homes where state laws define the purchase or holding of a mobile home as the purchase or holding of real property *and* where the loan to purchase the mobile home is secured by that mobile home as evidenced by a mortgage or other instrument on real property; individual condominium dwelling units and loans secured by an interest in individual cooperative housing units, even if in a building with 5 or more dwelling units; vacant lots in established single-family residential sections or in areas set aside primarily for 1-4 family homes; and housekeeping dwellings with commercial units combined where use is primarily residential and where only 1-4 family dwelling units are involved.

(a) Revolving, open-end loans: Report the amount outstanding under revolving, open-end lines of credit secured by 1-4 family residential properties. These lines of credit, commonly known as home equity lines, are typically secured by a junior lien and are usually accessible by check or credit card.

(b) Closed-end loans secured by first liens: Report the amount of all closed-end loans secured by first liens on 1-4 family residential properties.

(c) Closed-end loans secured by junior liens: Report the amount of all closed-end loans secured by junior (i.e., other than first) liens on 1-4 family residential properties. Include loans secured by junior liens in this item even if the finance company also holds a loan secured by a first lien on the same 1-4 family residential property and there are no intervening junior liens.

(2) Multifamily Real Estate Loans: Credit arising from permanent nonfarm residential loans secured by real estate as evidenced by mortgages (FHA or conventional) or other liens on nonfarm properties with five or more dwelling units in structures (including apartment buildings and apartment hotels) used primarily to accommodate households on a more or less permanent basis; five units or more household dwellings with commercial units combined where use is primarily residential; cooperative-type apartment buildings containing five or more dwelling units; and vacant lots in established multifamily residential sections or in areas set aside primarily for multifamily residential properties.

A single contract governs multiple use of the account and purchases may be made with a credit card. (3) Other Consumer Loans: All loans arising from retail sales of consumer goods other than motor vehicles that are not extended under a revolving credit line. Paper arising from retail sales of mobile homes, defined as complete dwelling units built on a chassis and capable at time of initial purchase of being towed over the highway by truck but not by car. *Include* goods like general merchandise, apparel, furniture, household appliances, campers, trailers, motorcycles, airplanes, helicopters, and boats purchased for personal use; automobile repair paper; credit to finance alterations or improvements to existing residential properties occupied by the borrower (if not secured by real estate); secured and unsecured loans made directly to the borrower for household, family, or other personal expenses; and unsecured loans to purchase auto insurance policies as well as loans secured by insurance policies, automobiles *already paid for*, and other collateral. *Exclude* loans for business purposes, rediscounted loans, loans secured by real estate, and wholesale and lease financing.
