## Annual Percentage Rate

| Annual Percentage Rate <br> (APR) | $\mathbf{5 . 2 5 \%}$. This is a variable rate that will change monthly based on the Prime Rate <br> lus $1.00 \%$ |
| :--- | :--- |
| Maximum APR | $\mathbf{2 4 . 9 9 \%}$. There is no limit on how much the rate can change in one year. |

| Fees |  |
| :---: | :---: |
| Refundability of Fees | We will refund all fees you paid if you tell us that you do not want to open an account: <br> - for any reason within three business days after you receive this statement; or <br> - any time before your account is opened if any of these terms (other than the APR) changes. |
| Total Account Opening Fees | Up to $\$ 1,740$, for the following: <br> - \$350 for loan origination <br> - \$800 for loan discount <br> - $\$ 295$ for underwriting <br> - \$200 - \$295 for appraisal |
| Annual Fee | \$50 |
| Early Termination Fee | $\$ 500$ or. $\mathbf{1 2 5 \%}$ of the credit limit, whichever is greater, if you close your account within three years. |
| Required Account Protector Plan | $\$ 0.79$ per $\$ 100$ of balance at the end of each statement period. See enclosed information for details. |
| Other Fees | Other fees will apply, such as penalty fees and fees to make transactions on the account. Ask us for additional information about other fees. |

## Borrowing and Repayment Terms

| Length of Credit Plan | You can borrow money for 10 years and must make minimum monthly payments <br> during that time. At the end of this period, you must repay the remaining balance in <br> full. |
| :--- | :--- |
| Balloon Payment | If you make only the minimum monthly payment you will not pay off your entire balance <br> by the end of the line of credit. At that time, will have to pay the remaining balance in a <br> single payment, known as a "balloon payment." |

## How Your Minimum Monthly Payments Are Determined

Your minimum monthly payment will cover only interest and will not pay down your balance.

## Sample Payments on an $\$ 80,000$ Balance

The table shows examples of your first monthly payments at the current and maximum APRs if you borrow $\mathbf{\$ 8 0 , 0 0 0}$ when you open your account and do not borrow any more money. No matter what your rate is, you would owe a balloon payment of $\$ 80,000$ if you made only minimum monthly payments.

These are not your actual payments. Your actual payment each month will depend on the amount that you have borrowed and the interest rate that month.

| APR |  |
| :--- | :--- |
| Sample Payments | First Payment |
| $\mathbf{5 . 2 5 \%}$ (current) | $\$ 350.00$ |
| $\mathbf{2 4 . 9 9 \%}$ (max.) | $\$ 1,666.00$ |

## Fixed Interest Rate Option

You have the option to borrow at a fixed interest rate an amount up to your available credit limit. Ask us for details.

| Risks |  |
| :---: | :---: |
| You Could Lose Your Home | Your credit plan will be secured by your home. This means you could lose your home if you cannot repay the money you owe, or otherwise default. |
| You May Not Be Able to Borrow From Your Line of Credit | Under certain circumstances, we can: <br> - Terminate your line of credit, make you pay the outstanding balance in one payment, and charge you fees upon termination; <br> - Not allow you to borrow any more money, even if you have borrowed less than your credit limit; <br> - Lower your credit limit; and <br> - Make other changes to the plan. <br> Ask us for more information about when we can take these actions. |
| The Interest You Pay May Not Be Tax-Deductible | If you borrow more than your home is worth, the interest on the extra amount may not be deductible for federal income tax purposes. Consult a tax advisor to find out whether the interest you pay is deductible. |

$\rightarrow$ You have no obligation to accept these terms. These terms could change before we open your account.
